

**OPEN LETTER**

TO  
ALL COMPETENT AUTHORITIES,  
COMMITTED TO RESOLVING THE SITUATION IN UKRAINE

Dear Colleagues and Partners,

The Bulgarian Chamber of Commerce and Industry is following with anxiety the situation in Ukraine. We are concerned about the economic stability of the country and the whole region. Bulgarian companies working with partners from Ukraine have already suffered losses due to failure to fulfill their contracts.

We strongly hope that the committed political forces and authorities will act with responsibility and will do the necessary for solving the problems peacefully. We expect that no serious deteriorations of the economic situation in Ukraine and the region will be tolerated.

We hope the preconditions for the ordinary work of the bodies related to trade, import and export of the country will be kept.

We insist that the rights of the investors and traders in Ukraine should be observed.

The Bulgarian Chamber of Commerce and Industry believes in the possibility of finding a peaceful outcome of the crisis and will assist in maintaining the good trade relations and interest in cooperation with Ukraine.

TSVETAN SIMEONOV

President of the Management Board

Bulgarian Chamber of Commerce and Industry
