20 Fri	Mock Examination of TPS Certificate Grade-4	Wrap up: Answers and Explanation of the Mock Exam	
21 Sat	Real Examination of TPS Certificate Grade-4	Certificate Awarding	

Hands-on Exercises to confirm your understanding of TPS

← "Process Improvement" Exercise planned for Feb 18

→ "Logistics Improvement" Exercise planned for Feb 18

Venue and Accommodation:

HIDA Kansai Kenshu Center (KKC) – Osaka, Japan

HP: <http://www.hidajapan.or.jp/hida/en/about/location.html>

Number of Participants:

25 people

(minimum number 15 people)

Voices of past participants

I am really happy for attending this seminar. I have already applied some tools from this seminar in my work and I noticed improvement and growth in both production and profit. HIDA - AOTS support us in this seminar with real Toyota experts and that give us empowerment, knowledge and exchanging experience. I invite anyone in charge of Lean Manufacturing to attend and join this real experience.

- Karim Ali, General Manager, El madina for metal forming Co. Egypt

This course was an eye opener and a mind boggling workshop as we learnt practical tips from TEC faculty who had years of first hand experience. Notable were the simulations on kaizen and hands on simulations on Kanban coupled with factory visits at Toyota and other best in class organizations. I would suggest everybody from CEO to frontline should attend it, not just production oriented people!

- Dr. Sunil Gupta, CLO & chief Innovation Instigator, Lifetime Master Trainer, Edward de bono tools
